

**John C. MacQueen Lecture Award
For Innovation in the field of Maternal and Child Health**

Presented at its annual conference, AMCHP established the MacQueen Lectureship to honor an individual who has made an exemplary contribution to maternal and child health issues.

Background

The Association of Maternal and Child Health Programs has established an annual lectureship to honor one of its most distinguished members, John C. MacQueen, the former director of the Iowa Child Health Specialty Clinics, the state's program for Children with Special Health Care Needs (CSHCN).

A pediatric neurologist, John C. MacQueen has achieved success at state and national levels. As an administrator and clinician, an advocate, innovator and educator, Dr. MacQueen made his presence felt throughout the country through his tireless work on behalf of children with special health care needs.

The Association of Maternal and Child Health Programs takes special pride in those accomplishments that have advanced family health programs. They include 30 years as a CSHCN state director; leadership as vice-chair of the Congressional Select Panel for the Promotion of Child Health; membership on the Advisory Panel on Technology and Child Health, Congressional Office of Technology Assessment; contributions to the Maternal and Child Health Bureau and to the Surgeon's General workshops; and advocacy for Title V.

Dr. MacQueen died in September 2009. He was retired from the University of Iowa as director of the National Maternal and Child Health Resource Center. He was also emeritus professor of Pediatrics at the University's College of Medicine and served as associate dean of the College of Medicine.

Criteria for Reviewers

- The awardee is a contributor to the field of MCH
- The awardee is an advocate on behalf of the MCH community
- The awardee focuses their work on/around the establishment and maintenance of *healthy communities*
- The awardee can deliver a dynamic/inspirational lecture to the MCH community
