AMCHP, National Partnership Release Guide to Maternal Health Legislation

Washington, D.C. – The Association of Maternal & Child Health Programs (AMHCP) is pleased to collaborate with the National Partnership for Women & Families to produce [a new reference guide](#) to key legislative proposals in Congress to address maternal health.

The 115th Congress enacted bipartisan legislation that supports maternal mortality review committees and aims to increase the supply of maternal health providers in targeted areas. This guide to current legislative proposals shows how members of the 116th Congress have the opportunity to build on that progress.

###

AMCHP is the national membership association of state maternal and child health leaders. As an advocate, resource and partner, AMCHP's mission is to protect and promote the optimal health of women, children, and families. We envision a nation that values and invests in the health and well-being of all women, children, families, and communities. For more information, visit www.amchp.org or connect with AMCHP on [Facebook](#) or [Twitter](#).
