## **AMCHP and Got Transition Unveil New Implementation Toolkit to Help Title V Agencies Meet National Performance Measure 12 on Transition**

Washington, D.C. – The Association of Maternal & Child Health Programs (AMCHP), in partnership with Got Transition, released a [new implementation toolkit](#) to help Title V agencies meet National Performance Measure (NPM) 12, focused on transition to adult health care for youth with and without special health care needs.

The NPM 12 Toolkit is part of a series of toolkits that provide evidence-based and -informed practices, reports, publications, and other resources geared toward each NPM. The information within the toolkits can be implemented at the state, territory, and community levels. Toolkits include implementation-focused resources and guidance from AMCHP, including AMCHP's [Innovation Station](#), with contributions from Title V agencies and other partners in MCH and linkages to Got Transition's website for additional resources.

The first five toolkits on the Well-Woman Visit (NPM 1), Breastfeeding (NPM 4), Developmental Screening (NPM 6), Bullying (NPM 9), and the Adolescent Well-Visit (NPM 10) can be found on AMCHP's Implementation Toolkits [page](#).

We hope these toolkits will encourage Title V programs to learn from one another and share their strategies and resources to improve maternal and child health practice across the country.

###

AMCHP is the national membership association of state maternal and child health leaders. As an advocate, resource and partner, AMCHP's mission is to protect and promote the optimal health of women, children, and families. We envision a nation that values and invests in the health and well-being of all women, children, families, and communities. For more information, visit [www.amchp.org](http://www.amchp.org) or connect with AMCHP on [Facebook](#) or [Twitter](#).
