New Resources to Promote Coverage for Parents and Children During the ACA Special Enrollment Period

Available through August 15th

A new Special Enrollment Period (SEP), announced by the Biden administration, allows consumers to sign up for or change their health insurance until August 15, 2021. In response to the COVID-19 pandemic, residents in states that use HealthCare.gov for their insurance marketplace may take advantage of this special enrollment period.

State MCH programs have an important role to play in promoting the SEP. Check out the following resources for opportunities for Title V programs to promote awareness of the SEP and provide consumers information about applying for coverage.

A New Opportunity to Get Health Insurance for You and Your Family
