

In response to the question, “What is a top child health priority in your state?” *PULSE* readers overwhelmingly responded that **childhood obesity/overweight** (including healthy weight) was the number one priority. This topic was mentioned almost twice as many times as all other topics.

***PULSE* Reader Poll: Top Ten Child Health Priorities**

Other child health priorities:

- Autism
- Poverty
- Education
- Behavioral /emotional health
- Special Health Care Needs
- Funding and resources
- Disabilities (including developmental disabilities)
