What Were AMCHP Members’ Experiences with Evidence-based Practices and Evidence-based Strategy Measures (ESM) in 2015?

Q1. Please indicate your level of agreement with the following statements around the evidence base for MCH. Over the past year...

- I have applied at least one practice from AMCHP’s Innovation Station to my work.
- I had adequate capacity to apply evidence-based MCH programs, policy, and practice in my work.
- I have used evidence-based MCH programs, policy and practice in my work.
- My knowledge of evidence-based MCH programs, policy and practice in MCH has increased.
- My awareness of evidence-based MCH programs, policy and practice has increased.

82% of respondents increased their knowledge of evidence-based MCH programs, policies and practices in the past year.

Q2. Please indicate your level of agreement with the following statements around the evidence base for MCH. Over the past year...

- I have used information from an AMCHP technical assistance activity to inform my state’s ESM development.
- My ability to contribute to selection of appropriate ESMs for my state action plan has increased.
- My knowledge of evidence-based and evidence-informed strategy measures (ESMs) development has increased.
- My awareness of technical assistance available for evidence-based and evidence-informed strategy measures (ESMs) development has increased.

55% of respondents increased their ability to contribute to selection of appropriate ESMs for their state action plan.
