THE ASSOCIATION OF MATERNAL & CHILD HEALTH PROGRAMS

BOARD CORNER

This month, we have the privilege of introducing you to two additional AMCHP leaders that currently serve on the Board of Directors: Susan Chacon and Linda McElwain. For more information about Susan and Linda, please visit AMCHP Board Member biographies [here](#).

These volunteer leaders have been elected by you to provide for the care and future direction of AMCHP. This information is meant to provide you with a resource for a new MCH connection, a better understanding of the board member roles, or simply to pique your interest in the work of your peers.

becoming involved with AMCHP at the leadership level. “When it was time to select a new Region VI representative to the board I was excited to submit my name as a way of giving back to the organization and to develop a better understanding of the operations and support to AMCHP. I had no idea that my tenure would include MCH 3.0!! It has been a wonderful and inspiring experience to be part of this new chapter for the Title V family.”

In her spare time, Susan is the proud mother of two ‘wonderful boys’ ages 10 and 12 and enjoys all the ‘beauty and plethora of activities New Mexico has to offer with my family.’

Susan Chacon, a member of AMCHP since 2010, has volunteered her time to AMCHP in several areas including as a member of the Emerging Issues Committee, Family and Youth Leadership Committee and the Governance Committee.

Her valuable professional background working with children and youth with special health care needs has brought much desired expertise to the Board of Directors. Susan currently serves as the CYSHCN director with the New Mexico Department of Health Children's Medical Services. She has been a professional social worker for more than 20 years with 15 of those years spent working for the children with special health care needs program in New Mexico in various roles. Susan describes her passions as “working to address social, cultural and economic inequities in health care.”

“I had great respect and admiration of the AMCHP staff and the support and technical assistance they provide to the states,” say Susan when sharing her thoughts of

Linda McElwain is new to the AMCHP board this year and has been an active member since 2011.

As a nurse, Linda expertise and experience spans more than 30 years and includes a variety of diverse settings including hospitals, public health settings, and home visiting programs within both the military and public health. She currently serves as the Maternal and Child Health Unit manager for the Wyoming Department of Health.

She also brings to our leadership interesting and unique exposure to maternal and child health internationally having enjoyed serving MCH in a Haitian mission hospital, as a home visitor for the Navy and Marine Corps New Parent Support Program in Puerto Rico and Okinawa and a short stint with an Emergency Disaster Relief Team in Lebanon.

BOARD CORNER CONT.

We are very much looking forward to learning how Linda's international MCH experiences complement those of her domestic counterparts and what lessons might be gleaned from her important work overseas. Linda says of her work with AMCHP, "I have appreciated the support AMCHP provides to us as a state and a region and look forward to learning more and networking."

Please take a moment to visit the [AMCHP board page](#) on the website for more details and how you can reach Susan and Linda.

LEGISLATIVE & POLICY CORNER

Health Reform Implementation

King v Burwell

AMCHP is closely monitoring the Supreme Court case, King v. Burwell. This case hinges on the legality of the advance premium tax credits (the "subsidies"). As written, the Affordable Care Act (ACA) states that subsidies will be provided only in states that operate their own exchanges. Currently 34 states are operating a federally facilitated exchange. If the Supreme Court rules that subsidies are not available in the federal exchange, it could result in loss of coverage for millions of people and destabilization of the health insurance industry, rendering coverage unaffordable and inaccessible. According to an estimate by the National Women's Law Center (NWLC), "Without this financial help, approximately 4.2 million women are at risk of losing their health insurance because they could not afford full cost of monthly health insurance premiums ([NWLC, 2015](#))." Kaiser Family Foundation developed an [interactive map](#) that helps us understand the state by state implications for a ruling in favor of the challenger. Additionally, some lawmakers at the federal and state level are drafting alternative plans in the event of a ruling in favor of the challenger. A ruling is expected sometime in the next few weeks.

FAQs – ACA Implementation

On May 11, the Centers for Medicare and Medicaid

LEGISLATIVE CORNER CONT.

(CMS) released the 26th set of FAQs regarding implementation of the ACA. This FAQ clarifies questions regarding the coverage of preventive services such as BRCA testing, coverage of contraceptives, well-woman preventive care for dependents, clarification on sex-specific recommended preventive services, among others. The FAQ is available [here](#).

Medicaid Managed Care

CMS recently announced a notice of proposed rulemaking to modernize Medicaid and the Children's Health Insurance Program (CHIP) managed care regulations. The proposed rule would strengthen the delivery of quality care at the state level and in a cost-effective manner. Specifically, CMS proposed to modernize managed care in the following ways ([CMS press release](#)). Some of the focus areas of the new regulations include delivery system reform, payment/accountability improvements, beneficiary protections, improving quality of care. The full regulations are available on the [Federal Register](#). AMCHP will continue to monitor this proposal and provide analysis.

CHIPRA Highlight

In the May 2015 Agency for Healthcare Research and Quality (AHRQ) *Evaluation Highlight*, authors discussed: How Are CHIPRA quality demonstration states improving perinatal care? This highlight discussed two states in specific, Florida and Illinois, and their efforts in "developing and implementing initiatives to improve the quality and outcomes of perinatal care." Through the state examples, the report highlights how Florida and

Looking to get more involved with AMCHP? Check out these exciting opportunities and make the most of your membership!

Board Nominations: The AMCHP Governance Committee is currently accepting nominations for 2016 AMCHP Board of Director positions. These leadership positions guide, direct, inform and contribute to moving AMCHP strategic directions and goals forward. More information about these positions, necessary qualifications and the nominations process may be found on the AMCHP website or by clicking [here](#). We ask that all nominations be forwarded to the Governance Committee by Jul. 31 to ensure that the committee has ample time to review all candidate materials.

LEGISLATIVE CORNER CONT.

Illinois forged partnerships, developed quality processes, developed systems-level changes, and implemented a variety of initiatives. The *Evaluation Highlight* is available [here](#).

GET INVOLVED

New Release Webinar: Developmental Screening Title V National Performance Measure Resources

As part of the recent transformation of the Title V MCH Services Block Grant, a new set of National Performance Measures (NPMs) were developed in partnership with states, families and other stakeholders. The new three-tiered performance measurement system includes national outcome measures (NOMs), NPMs and evidence-based/informed strategy measures (ESMs). To assist states in their action planning, the AMCHP State Public Health Autism Resource Center (SPHARC) developed a set of resources on state systems for developmental and autism screening. These resources are a first step based on a scan of current programs and activities. This webinar, held on Jun. 23 from 3:30-4:30 p.m. EST, will mark the release of these resources that include:

- A document highlighting current state strategies and strategy measures to improve developmental screening
- A case example of how a state could use SPHARC and other AMCHP tools to develop objectives, strategies and measures related to the developmental screening NPM#6
- A national landscape document of federal and national programs that have a specific objective/measure around developmental screening
- A state matrix of which states have/had certain grant or technical assistance programs related to developmental screening

Presenters also will highlight next steps and upcoming technical assistance to help states with action planning and development of ESMs, including *Strengthening the Evidence Base for MCH Programs*. More information can be found on the [SPHARC website](#). To register, [click here](#).

GET INVOLVED CONT.

Are you a Next Generation MCH Professional (age 45 or <)? Are you interested in helping shape AMCHP membership efforts related to your peer group? Join us in the virtual world by participating in the AMCHP Next Generation MCH Professionals Open Calls!

The next generation of MCH professionals can be characterized as a “force to be reckoned with” based on the numbers alone – by the end of 2014, half of the employees in the world will be those born after 1980. Understanding what motivates or drives the behavior of this segment of the MCH workforce, then, is of critical importance and AMCHP wants to know: more about how this group of professionals views association membership (why they join member associations, what member benefits they are looking for, and what roles are they willing to participate in if they join an association?); more about the leadership development preferences of this professional group; more about how we can better connect you with your peers; more about how we can better support you. AMCHP is hosting an open call (**Jun. 24 2-3 p.m. EST**) for Next Gen MCH professionals to share the work AMCHP accomplished thus far with guidance from our Advisory Workgroup and the AMCHP Workforce Development Committee and hear from you: what do you want/need from AMCHP to inspire innovation and positive growth for Next Gen leaders in MCH! [Click here](#) to register for the event.

National MCH Workforce Development Center Coffee Talk Series – Check Out Video 3 Today!

This series will be hosted by the National MCH Workforce Development Center Change Management core on three pertinent topics benefiting the Title V workforce. The series will consist of three archived 20-minute videos for AMCHP members to access bi-monthly at their leisure. For the alternating months, AMCHP will host a Twitter chat on the content shared during the preceding month’s archived video. The topics and identified speakers for each video/Twitter chat are outlined below. [Click here](#) to learn more about each talk and to register!

GET INVOLVED CONT.

Coffee Talk 1: Title V Transformation

Presenter: Lacy Fehrenbach, MPH, CPH, Director, Programs, AMCHP

Video Release: Mar. 2 – [Click here](#) to view the video

Coffee Talk 2: Getting to the Table

Presenter: Sharron Corle, MS, Associate Director, MCH Leadership Development & Capacity Building, AMCHP

Video Release: Apr. 1 – [Click here](#) to view the video

Coffee Talk 3: Leading Change

Presenter: Karen Trierweiler, Director of Programs & Services, Prevention Services, Colorado Department of Public Health and Environment

Video Release: Jun. 1 – [Click here](#) to view the video

Twitter Chat: Jul. 22 2-3 p.m. EST

Coffee Talk 4: Managing Change

Presenter: Brenda Jones, DHSc, RN, MSN, WHNP-BC, Deputy Director, Office of Women's Health, Illinois Department of Public Health

Video Release: Aug. 1

Twitter Chat: Sept. 9 1-2 p.m. EST

Family Engagement in Title V

Oral Health Across the Lifespan Three-Part Webinar Series

Research shows that oral health can have both good and poor impacts on our overall health. Poor oral health care can lead to a wide range of oral diseases, from cavities to cancer. In some populations, there is limited access to oral healthcare and these populations have unique needs that continue to be overlooked due to the lack of understanding of current recommendations. This three-part series hosted by the National Association of County and City Health Officials (NACCHO) and the Association of State and Territorial Health Officials (ASTHO), with support from the Health Resources and Services Administration (HRSA), will explore oral health in special populations, specifically addressing the unique oral health needs of children and youth with special health care needs, pregnant women, and older adults.

Webinar 1: Oral Health Considerations for Children and Youth with Special Health Care Needs

Date: Jun. 23, 2015

Time: 2-3:30 p.m. EST

The first webinar in the Oral Health Across the Lifespan webinar series, Oral Health Considerations for Children and Youth with Special Health Care Needs, will address the oral health care needs of children with special health care needs. [Register](#)

Webinar 2: Improving Oral Health Services during Pregnancy

Date: Jul. 7, 2015

Time: 2-3:30 p.m. EST

The second webinar in the Oral Health Across the Lifespan webinar series will address oral health care needs during pregnancy. [Register](#)

Webinar 3: Oral Health and Aging: Meeting the Needs of Older Adults

Date: Jul. 21, 2015

Time: 2-3:30 p.m. EST

AMCHP is seeking submissions of emerging, promising and best practices in MCH from all states and territories on women's health. Do you have a program that fits?

You'll have a chance to:

- Share successes with your peers
- Enhance the MCH field
- Contribute to program replication
- Get expert feedback from the Review Panel
- Receive national recognition

The online submission process is simple and applications are accepted on a rolling basis. For more information, contact [Ki'Yonna Jones](#) at (202) 266-3049 or visit amchp.org/bestpractices.

You can also [click here](#) to refer an innovative MCH program that we should know about!

GET INVOLVED CONT.

The final webinar in the Oral Health Across the Lifespan webinar series will address the oral health care needs of older adults. [Register](#)

MCH Navigator Monthly MCH Leadership Competencies Series Starts in July

Beginning in July 2015, the MCH Navigator will conduct a monthly series that explores each of the 12 MCH Leadership Competencies, provides learning opportunities and implementation strategies, and culminates in an interactive learning session with an expert from the field. The series will consist of an easy-to-follow format designed to increase your knowledge and skills through five-minute intensive learning sessions e-mailed to you each week and available through the Navigator Web portal:

- In week one of each month, you will learn about a new one competency through a five-minute video podcast. You will learn what knowledge and skill sets each competency contains and how they are important for your daily work. You also will be linked to the MCH Navigator's online self-assessment to further identify your learning needs.
- In week two of each month, you will receive five highly focused learning opportunities for that month's competency. You may take one or all of the trainings to sharpen your knowledge and skills. You can share your learning experiences online with others who have taken the same trainings.
- In week three of each month, you will receive five implementation strategies to put knowledge to practice. You can share your experiences implementing the strategies in your workplace on the 5-Minute Portal.
- In week four of each month, you will hear a five-minute presentation from an expert in the field. You will have the opportunity to ask questions and dialogue with other health professionals in a 10-minute follow-up to the speaker. Now you are on your way to becoming an expert!

At the close of the webinar you will receive a certificate of completion for your focused work throughout the month. See if you can complete all 12 (and receive a special MCH Navigator Work Kit)! To learn more and register today, [click here](#).

Text4baby Kicks Off 2015 Enrollment Contest

The 2015 Text4baby State Enrollment Contest – launched in honor of Mother's Day and National Women's Health Week – has begun. The contest is open to all 50 states, the District of Columbia, Puerto Rico, and the U.S. Virgin Islands. The top states to enroll the highest percentage of mothers in Text4baby between May 10 and Oct. 17, 2015 will be recognized. Even if you are not one of the final winners, your state will still have the opportunity to win each week. You can monitor your state's progress at www.text4baby.org and through Text4baby Tuesday. Check out where your state currently ranks [here](#). For ideas on how to promote Text4baby in your community, download the [Text4baby Outreach Toolkit](#) that provides outreach strategies and best practices for promoting Text4baby in your state or community. Check out the [2015 State Enrollment Contest page](#) for additional tools and information.

Special Issue Call for Papers: Postpartum Health and Wellness

The *Maternal and Child Health Journal* is soliciting manuscript submissions to be considered for an upcoming issue on the theme of postpartum health and wellness. This important period in the reproductive life continuum provides a critical link between prenatal care and women's preventive health care as well as an essential opportunity to guide and support maternal role attainment, breastfeeding, mental health and healthy parenting. The Journal solicits manuscripts on any aspect of postpartum health and wellness, including policy briefs, original research, commentaries, perspectives in practice (clinical or public health), program development or implementation, program evaluation, and literature reviews. The deadline for submission is Oct. 15. For more information, [click here](#).

Scientific Writing for Peer Reviewed Publications for Public Health Professionals

The Learning Institute of the 143rd Annual Meeting of the American Public Health Association will offer a pre-conference course on Oct. 31 from 9 a.m. to 5 p.m. CST at McCormick Place in Chicago. The purpose of this Institute is to help public health practitioners turn their work into manuscripts for publication. The course will be a mixture of presentations and hands-on work. Participants will be strongly encouraged to come to the

GET INVOLVED CONT.

training with an abstract, manuscript outline, data analysis results, or a draft of an article that they would like to see turned into a manuscript. To learn more, [click here](#).

How to Evaluate Public Health Programs

A short course will be offered by the Learning Institute of the 143rd Annual Meeting of the American Public Health Association on Nov. 1 from 8-11:30 a.m. CST at McCormick Place in Chicago. The purpose of this course is to teach public health professionals, particularly at the community, local or state levels how to evaluate public health programs. In a time of budgetary constraints and increased expectations of accountability for public health programs, it is essential that we follow evidence-based strategies, develop measurable performance outcomes, and effectively quantify the impact of programs. To learn more, [click here](#).

Prematurity Prevention Conference 2015

Participants from multiple disciplines will examine ways to enhance prematurity prevention efforts in the United States by sharing best practices for designing, implementing and evaluating programs and policies. The conference, held Nov. 17-18 in Arlington, VA, will be a forum for disseminating findings, sharing tools and resources, and engaging stakeholders in the effort to significantly reduce the U.S. preterm birth rate by 2030. Abstracts for poster presentations are being accepted. For more information, visit www.marchofdimes.org/conferences.

Women's & Infant Health

Maternity Leave and Workplace Breastfeeding Mandating Paid Maternity Leave for America's Working Mothers: Improving the Health and Economic Stability for Families discusses the importance of paid maternity leave policies, while **Supporting Breastfeeding in the Workplace** presents a guide to the why and how of implementing breastfeeding support policies. These policy briefs were developed by participants of the Emerging Leaders in MCH Nutrition Training Institute.

CAREER OPPORTUNITIES

AMCHP Seeking Senior Program Manager, CYSHCN

This position develops, implements and evaluates program activities related to children and youth with special health care needs (CYSHCN). The program manager will assist in the tracking, analysis, and reporting on national and state programs impacting CYSHCN and will partner with relevant federal agencies such as the Maternal and Child Health Bureau and CDC, and other national organizations and groups concerned with child health, adolescent health, and CYSHCN. Specifically, this position will manage two major AMCHP projects, the Leadership Institute for State Title V Children and Youth with Special Health Care Needs Directors and the implementation of Standards of Care for CYSHCN. This position reports to the associate director, child & adolescent health. For more information, [click here](#).

Michigan Department of Health and Human Services Accepting Applications for MCH Epidemiologist

The Michigan Department of Health and Human

CAREERS CONT.

Services, Maternal & Child Health Epidemiology Section is seeking qualified candidates for the permanent fulltime position, Epidemiologist-Maternal and Child Health-Preventable Mortality. This is a new position and provides epidemiological support to the Bureau of Family, Maternal and Child Health; Local Health and Administrative Services; and Disease Control, Prevention and Epidemiology in areas of prevention of maternal mortality, youth suicide and sleep-related infant mortality. This includes support to the Maternal Mortality Surveillance, Youth Suicide Prevention, Safe Sleep Programs and the Fetal and Infant Mortality Review (FIMR). These programs aim to improve the health of women, infants and youth by reducing preventable mortality in at-risk populations. The closing date is Jun. 23, 2015. For a more detailed job announcement and online application instructions please visit the [neogov site](#). The job # is: 3901-15-05-073.

MCHB Opening for Director, Division of MCH Workforce Development

The Division of Maternal and Child Health Workforce Development plans, directs, coordinates, monitors and evaluates national programs related to professional and public education activities focusing on the promotion of health and prevention of disease among women of reproductive age, infants, children, adolescents, and their families, with special emphasis on the development and implementation of family-centered, comprehensive systems of care for such population. The ideal candidate for this position will have experience administering and evaluating MCH programs, ensuring that they effectively provide healthcare related services. Such experience would include developing, justifying and implementing budgets and identifying workforce development needs. To learn more, [click here](#).

Public Health Nurse Supervisor Opening in Walla Walla, WA

Yakima Valley Farm Workers Clinic is seeking a public health nurse supervisor. Your nursing experience in assessment and counseling will improve the health and well-being of maternal and pediatric clients. You will work with infants and prenatal and postpartum moms in the Washington State First Steps and Oregon Maternity Case Management programs. This position offers you the opportunity to work as part of an integrated team at our clinic, as well as to make decisions and work independently in your profession. You also will provide supervision and leadership for the Community Health Service (CHS) staff and all CHS clinical oversight at Family Medical Center. To learn more, [click here](#).

AAPD Healthy Smiles, Healthy Children Grant

Deadline: *Aug. 3*

The American Academy of Pediatric Dentistry (AAPD) Healthy Smiles, Healthy Children program supports community-based initiatives providing Dental Homes to children whose families cannot afford dental care. It provides one-year matching grants of up to \$20,000, supporting community-based initiatives in the United States that provide dental care and serve as a dental home to underserved/limited access children. To learn more, [click here](#).

RWJF Building Evidence to Prevent Childhood Obesity

Deadline: *Jul. 1* (Concept papers), *Sept. 9* (Invited full proposals)

This national program of the Robert Wood Johnson Foundation (RWJF) supports research on environmental and policy strategies with strong potential to promote healthy eating among children to prevent childhood obesity, especially among groups at highest risk for obesity. Findings are expected to advance RWJF efforts to reverse the childhood obesity epidemic, eliminate disparities, and help all children achieve a healthy weight. The award types are Round 9 grants and RWJF *New Connections* grants awarded through the *Healthy Eating Research* program. To learn more, [click here](#).

Asthma and Allergic Diseases Cooperative Research Centers

Deadline: *Oct. 2*

The purpose of this announcement is to invite applications from single institutions or consortia of institutions to participate in the Asthma and Allergic Diseases Cooperative Research Centers (AADCRC) program. The program will support centers that integrate clinical and basic research to conduct studies on the mechanisms underlying the onset and progression of

diseases of interest, including asthma, rhinitis (allergic and non-allergic), chronic rhinosinusitis, atopic dermatitis, food allergy, and drug allergy. The overarching goal of the program is to improve the understanding of the pathogenesis of these conditions and to provide a rational foundation for new, effective treatments and prevention strategies. To learn more, [click here](#).

National Centers for Translational Research in Reproduction and Infertility

Deadline: *Nov. 12*

The Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD), through the Fertility and Infertility Branch (FIB), provides funding for a limited number of research centers in the reproductive sciences. These centers provide an arena for multidisciplinary interactions among basic and clinical scientists interested in establishing high quality translational research programs in the reproductive sciences. The centers also serve as national resources for the training and career development of young scientists electing to pursue careers conducting research in high priority areas of reproduction and infertility. Finally, center investigators develop and participate in important community outreach and education efforts to increase awareness and convey the importance and implications of their research activities to the general public. Accordingly, the purpose of this is to announce the competition of the National Centers for Translational Research in Reproduction and Infertility, which replaces the Specialized Cooperative Centers Program in Reproduction and Infertility Research U54 program. To learn more, [click here](#).

NIH Initiative to Maximize Research Education in Genomics Diversity Action Plan

Deadline: *Sept. 6, 2016*

NIH present this funding opportunity to facilitate the training of individuals at all careers levels (the undergraduate, graduate, post baccalaureate, postdoctoral and faculty levels) from diverse backgrounds underrepresented in scientific disciplines relevant to genomics to enable them to pursue genomics research that spans all areas of interest to National Human Genome Research Institute later in their careers. To learn more, [click here](#).

FUNDING CONT.

Exploratory and Developmental Grant to Improve Health Care Quality through HIT

Deadline: Nov. 16, 2016

The purpose of this grant is to fund exploratory and developmental research grants that will contribute to the evidence base of how health information technology (HIT) improves health care quality. This funding opportunity supports the use of a wide variety of research designs in order to generate information regarding the design and development, implementation, use, or impact of health IT on quality.
