Oregon Title V Needs ASSESSMENT: Stakeholder Engagement

Stakeholders Engagement in NA Implementation

Needs Assessment Planning

Block Grant 3.0 Prioritization Process
- A multi-stakeholder group of Title V Block Grant implementers and key state partners convened for two half-day sessions to review needs assessment findings & develop priority recommendations for State Title V Plan(s)
- Subject matter experts will promote context for the data and information gathered through the needs assessment
- These results of data analysis will be provided for Advisory Group members to understand both health data and context for the issues in Oregon

Challenges & Lessons Learned
- Problem-solving these decisions to focus stakeholder engagement
- Community partners in measurement
- Participants in strategy development
- Further time constraints & geography drive decisions to use innovative tools
- Effective discussion
- Workshops
- vaginal flushing on existing grants

What’s next?
- Stakeholder engagement in:
  - Strategy development
  - State measure development
  - Strategy implementation
  - Ongoing needs assessment

Needs Assessment Planning

Stakeholders were recruited to the planning team in Fall 2013 to ensure 2-way communication with key partners, appropriateness of methods, and outreach for engagement during NA implementation

- Local Public Health: Council of Local Health Officials, Association of Oregon Public Health Nurse Supervisors
- Children and Youth with Special Health Needs
- Tribal Maternal and Child Health
- Adolescent Health
- Home Visiting System
Stakeholders Engagement in NA Implementation

Scan of Community Assessments
- Started by listening to what communities and partners have told us about their MCH needs through assessments they conducted around the state over the past 3 years.
  - County health department assessments
  - Health care systems’ community assessments & health improvement plans
  - Community-based organizations’ population specific assessments

MCH Partner Survey
- Surveyed over 750 partners around the state
- Asked about national MCH priority areas, current state MCH priorities and emerging MCH priorities for Oregon
- Rated importance for community health, health equity, current efforts to address and potential to impact.

Systems and Forces of Change Assessment
- Listening sessions: parenting educators, equity coalitions
- Online discussion forum: local public health and Tribal MCH programs
- Webinar: Tribal MCH programs
- Key informant interviews: key state agency partners
- CYSHCN stakeholder panel

Block Grant 3.0 Prioritization Process
- Advisory Group made up of Title V Block Grant and key state partners will convene for two half-day sessions to review needs assessment findings & develop recommendations for State Title V leadership
Block Grant 3.0 Prioritization Process

- Advisory Group made up of Title V Block Grant implementers and key state partners will convene for two half-day sessions to review needs assessment findings & develop priority recommendations for State Title V leadership
- Subject matter experts will provide context for data and information gathered through the needs assessment
- "News you can use" data tools will be provided for Advisory Group members to understand both the NA data and context for the issues in Oregon
Challenges & Lessons Learned

- Funding constraints drove decisions to focus stakeholder engagement:
  - Community partners in assessment
  - Consumers in strategy development
- Partner time constraints & geography drove decisions to use innovative methods:
  - Online discussion
  - Webinars
  - Piggy-backing on existing events
What's next?

Stakeholder engagement in:
- Strategy development
- State measure development
- Strategy implementation
- On-going needs assessment

Focus on:
- Consumer voice
- Populations experiencing disparities
what it’s really all about
Oregon Title V Needs Assessment: Stakeholder Engagement

Needs Assessment Planning
Stakeholders were recruited in planning phase in Fall 2013 to ensure a key communication with key partners, appropriate planning for the needs assessment process, and outreach the engagement during five implementation.

- Alliance for Children and Families Oregon
- Oregon Public Health Division
- Maternal and Child Health Section

Black Grant 3.0 Prioritization Process
- Advisory group met to prioritize Title V Black grant recommendations, and key stakeholders will review for humanitarian services for children, assessing priorities for Title V’s funding.
- Subject matter experts will present and test the prioritized interventions through the needs assessment.
- Stakeholders will be engaged in the Advisory Group members to understand Title V’s needs and content for the needs assessment.

Challenges & Lessons Learned
- Funding constraints drive decisions for future stakeholder engagement.
- Community partners in assessment.
- Consumers in strategy development.
- Further time constraints & geographically diverse do not use
- Oregon based.
- Online.
- Workshops.
- Engagement on existing events.
