

Oklahoma

Maternal and Child Health Block Grant 2016

The Maternal and Child Health Services Block Grant, Title V of the Social Security Act, is the only federal program devoted to improving the health of all women, children and families. Title V provides funding to state maternal and child health (MCH) programs, which serve 42 million women and children in the U.S. To learn more about Title V, visit www.amchp.org.

MCH Block Grant Funds to Oklahoma

FY 2013	FY 2014	FY 2015
\$6,682,855	\$6,692,189	\$6,903,092

Title V Administrative Agency:

Maternal and Child Health Service, OK Dept. of Health

*States must provide a three dollar match for every four Federal dollars allocated.

Protecting and Improving the Health of Oklahoma's Families

Child and Adolescent Health — The MCH program provides gap-filling child and adolescent services through county health departments, schools, and contract providers. Services include outreach, physical examination and treatment, anticipatory guidance, social work, nutrition, and health education.

Perinatal and Reproductive Health — County health departments and contract providers provide clinical family planning statewide and gap-filling maternity services, including outreach, preconception health assessment, prenatal risk assessment, physical examination and treatment, social work, nutrition, and health education.

Education and Training — The MCH program provides education and training for health care providers, communities, schools, children and parents on a variety of health issues including infant mortality, Life Course, healthy behaviors, infant safe sleep, positive youth development, teen pregnancy prevention, school health, injury prevention, suicide prevention, violence prevention, male involvement programs and adolescent transition.

Data and Technical Assistance — Statewide surveillance systems focused on health and health behaviors (PRAMS, TOTS, First and Fifth Grade Health surveys, YRBS) are supported with MCH Block Grant funds. Funds also support a statewide registry for monitoring of birth defects, Fetal and Infant Mortality Review projects and a statewide Maternal Mortality Review project. The MCH Program provides technical assistance for use of Fetal and Infant Mortality Review, Maternal Mortality Review and Child Death Review data.

Oral Health — The MCH program supports oral health education and fluoridation to communities, children and adults, including the Oklahoma 3rd Grade Oral Health Assessment. Dental health services are also supported, including oral examinations, clinical procedures, and treatment in select county health departments.

Children with Special Health Care Needs — The Children with Special Health Care Needs Program provides specialty services to children and youth with special health care needs through contracted providers. These services include respite care, diapers, metabolic formula, services for children with autism or sickle cell anemia, transition to adult health care, and services to high risk neonates. CSHCN also provides funding for a project that supports CSHCN families in eleven counties by building a comprehensive, integrated system that enhances access and utilization of health, mental health, social, educational and other community-based programs within their communities.

People Served by the Oklahoma MCH Program*

Title V population-based preventive and systems building services benefit all women and children in the state. In addition, the MCH Block Grant provided services to the following individuals:

80,178	pregnant women
58,330	infants under one
566,232	children and adolescents
27,621	children with special health care needs
532,382	others
1,264,745	total served

*2013 State/Jurisdiction Annual Reports Submitted to the Maternal and Child Health Bureau
