  - Coronavirus Crisis Update: Chris Murray, America’s Reopening
  - Coronavirus Crisis Update: Artist Suzanne Firstenberg – a Sea of 267,080 White Flags
Policy Statements and Updates

- **NEW POLICY BRIEF**: Building Trust in and Access to a COVID-19 Vaccine Within Communities of Color and Tribal Nations by Trust for America’s Health.

Funding Opportunities

- **NIH to support radical approaches to nationwide COVID-19 testing and surveillance:**
  “The National Institutes of Health has awarded over $107 million to support new, non-traditional approaches and reimagined uses of existing tools to address gaps in COVID-19 testing and surveillance. The program also will develop platforms that can be deployed in future outbreaks of COVID-19 and other infectious diseases. A part of the Rapid Acceleration of Diagnostics (RADx) initiative, the awards from the RADx Radical (RADx-rad) program will support 49 research projects and grant supplements at 43 institutions across the United States. It will focus on non-traditional viral screening approaches, such as biological or physiological markers, new analytical platforms with novel chemistries or engineering, rapid detection strategies, point-of-care devices, and home-based testing technologies.”
