• AMCHP SERVICES: Need to quickly translate COVID-19 public communications into other languages? AMCHP has you covered.

Please complete this form to submit requests to AMCHP for no-cost translations of COVID-19 health education and other public communication materials into languages other than English. Ideal materials are short (i.e. 1-2 pages) and meet the immediate information needs of individuals and families currently being (or potentially could be) served by state/territorial MCH programs. Each request will be reviewed and the primary contact will be notified of the request status within 1-2 business days of receipt and, if approved, translated materials will be delivered electronically within 3-4 business days of approval. The request form includes a list of available translation languages, space to upload the original document files, and questions about the dissemination and potential reach of translated materials. Each translation request requires its own form submission. Please contact Dorianne Butler with any questions: DButler@amchp.org

• PODCAST: Maintaining Momentum Against HIV During COVID by Abt Associates

• WEBINAR: Telehealth Policy Update Changes for 2021 by Dialogue4Health, December 9th, 2020 at 12noon-1pm EST.

• WEBINAR: Disparities in COVID-19: Unjust, Unacceptable & Correctable by The American Lung Association, December 8th, 2020 at 4-5pm EST.

• WEBINAR: Year-End Reflections on 2020 with Dr. Anthony Fauci by CSIS, December 14th, 2020 at 1-2pm.

• WEBINAR/AMCHP EVENT: Elevating the Need for Health-Education Coordination: Bridging Together Title V and IDEA to Best Support Children with Disabilities by Child Trends & AMCHP, December 9th, 2020 at 3:30-4:30pm ET. Parents and families of children with disabilities and special health care needs have made it clear that the pandemic has disrupted critical school-provided services, presenting significant challenges to children’s well-being and development beyond teaching and learning. On Wednesday, December 9, at 3:30 pm ET, the Association of Maternal and Child Health Programs will host a discussion, with Child Trends and the National Association of State Directors of Special Education, on how state public health systems can support critical school-based services for children with disabilities and special health care needs.
