

# Adolescent & Young Adult Health Collaborative Improvement & Innovation Network (AYAHC-IIIN)

*Advancing evidence-based/evidence-informed strategies to increase access to and the quality of preventive health care visits for young people*

## Meet the AYAHC-IIIN Cohort 2 State Teams

### Indiana

is bringing together systems-level and direct-service efforts to increase and to improve preventive health services for AYAs across the state.

### Maryland

is heightening awareness of the well-visit and ensuring that all AYAs from various backgrounds can connect to health care with which they feel comfortable.

### New Hampshire

is experimenting with leveraging school policies to increase student well-visits and working with clinics to improve their youth-friendliness.

### New Jersey

is focusing on improving access to and quality of adolescent well-visits at Federally Qualified Health Centers (FQHCs) across the state.

### Minnesota

is engaging statewide partners and young people to promote preventive visits through a marketing campaign, and improve well visit quality, equity, and experience for AYAs.

### Washington

is tackling AYA health by utilizing their existing network of School-Based Health Centers (SBHCs).

### Wyoming

is promoting preventive and quality care for AYAs through innovative education models for providers, parents, and youth.
