

Adolescent & Young Adult Health Collaborative Improvement & Innovation Network (AYAH-CoIIN)

Advancing evidence-based/evidence-informed strategies to increase access to and the quality of preventive health care visits for young people

Who's the Team?

An amazing collaboration of people working at the state level and individuals in the clinics providing direct services.

What's Already AWESOME for AYAH in IN?

An innovative network of primary care adolescent health clinics around Indianapolis that provide comprehensive services, financial counseling, and medical-legal partnerships.

Indiana

... is bringing together direct-service and systems-level efforts to increase and to improve preventive health services for AYAs living in urban and rural settings.

AYAs Front & Center!

Young adult representatives on the Indiana team will contribute invaluable perspectives from their experiences and passion for key areas of AYA health including specialized health care services, foster care services, and youth engagement.

A Word from the Team

"As providers, we're faced every day by the fact that we can't do all of the things that need to be done. It's hard to navigate the system and figure out what to do both for individuals and to affect policy and larger scale coordination. This is an exciting chance to bring together that systems-level and direct service-level work."

- Dr. Dennis Fortenberry, Director Section of Adolescent Medicine, University of Indiana -
