

Adolescent & Young Adult Health Collaborative Improvement & Innovation Network (AYAH-CoIIN)

Advancing evidence-based/evidence-informed strategies to increase access to and the quality of preventive health care visits for young people

Who's the Team?

A truly equal partnership between AYAH professionals and youth representatives.

What's Already AWESOME for AYAH in NH?

The New Hampshire Pediatric Improvement Partnership has already brought forth a variety of partners deeply invested in these issues who understand that no one organization can have impact alone.

New Hampshire

... is experimenting with leveraging school policies to increase student well-visits and working with clinics to improve their youth-friendliness.

AYAs Front & Center!

Youth representatives on the New Hampshire team include high school, college, and nursing students. As equal partners, they will provide feedback on projects, conduct reviews, and have an opportunity to further explore their own interest in health care careers.

A Word from the Team

"Our team has so much individual expertise and together makes an interesting and dynamic group. We are eager for the chance that this CoIIN provides to put all of this experience in one place with a focused agenda."

- Anne Marie Mercuri, Adolescent Health Coordinator, New Hampshire Department of Health and Human Services -
