Milestone Moment: Vinyl Wall Blocks

Colleagues:

In the last month or so you received a set of 10 vinyl wall blocks that describe anticipated milestones in an infant/toddler’s development. These were developed by the “Learn the Signs. Act Early” campaign from the U.S. Centers for Disease Control. The University of Montana was able to fund the printing cost for these resources--$100 per set.

We hope that you have found a good use for these wall blocks. If so, that’s GREAT.

We would like to know how you are using these blocks and how they are received by your staff and the families you serve.

If you are not able to use the vinyl block as you had intended, please return them to us so that others can use them. We have a growing waiting list.

We ask for the following information. We hope it is easy and simple to gather. We want to share your success with others across Montana and with our partners in other states.

By October 6, please respond with the following:

1. 2-3 photos of the vinyl blocks on the walls so that we can see what they look like in your workspace. You can take these with your phone camera and send them directly to us at martin.blair@umontana.edu or text them to 406-552-7395.

2. **Staff responses** to the following questions (see the Milestone Moment: Staff Survey below).
   a. The Milestone wall blocks prompt families to ask questions about developmental milestones. Y N
   b. The Milestone wall blocks remind me to talk about healthy developmental milestones with families. Y N
   c. The Milestone wall blocks promote healthy child development by calling attention to important milestones. Y N
   d. The Milestone wall blocks taught me about developmental milestones. Y N

3. **Client/family responses** to the following questions (see the Milestone Moment: Family Survey below).
   a. I spent time looking at the Milestone wall blocks. Y N
   b. If I have questions about developmental milestones, I know who to ask. Y N
   c. The Milestone wall blocks promote healthy child development by calling attention to important developmental milestones. Y N
   d. I learned new information from the Milestone wall blocks. Y N
Milestone Staff Survey
Staff can provide answers to the following questions and return the survey in several ways.

1. Complete it online (computer, tablet, smartphone): click Milestone Staff Survey or http://ri.umt.edu/milestone-staff/

2. Take a picture of the completed survey (with a phone camera) and email it to: MtAutism@mso.umt.edu OR text it to 406-552-7395.

3. Return my mail to:
   Rural Institute/ Montana Autism Center
   University of Montana
   52 Corbin Hall
   Missoula, MT 59812
